## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: cut-out section "6" as discussed on page 4, the last line. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The abstract of the disclosure is objected to because of the use of the word "invention" in line 1, "The present invention is a" should be deleted and —A—inserted before "lock-down". Correction is required. See MPEP § 608.01(b).
3. The disclosure is objected to because of the following informalities: on page 4, line 9, "bots" should be —bolts—.

Appropriate correction is required.

***Allowable Subject Matter***

4. Claims 1-5 are allowed.

The prior art of record fails to teach a flat rectangular plate with sockets at each corner to receive a pair of bolts from both a rear plate having pivotally attached bolts at the bottom edge and a wheel cover front plate having pivotally attached bolts at a bottom edge, wherein the bolts engage the flat plate sockets as set forth in claim 1.

***Conclusion***

5. This application is in condition for allowance except for the following formal matters:

See paragraphs 1-3 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the cited wheel chocks and wheel locks. Especially note Lester 6,000,255 and Zimmerman 5,593,260.
